# Founder digest

Snapshot as of Monday 18 May 2026 08:00 UTC

Comparing against Sunday 17 May 2026 08:00 UTC.

## Needs your decision

1. **questions waiting for your answer: Tier B2 — residential-proxy POC for our agent risk scanner (ARE Scanner) (child).**
   (no prompt provided)
2. **questions waiting for your answer: CBDO: Pipeline, 15 meetings in 30 days, 3–5 pilot LOIs.**
   (no prompt provided)
3. **Waiting on you: CBDO: Pipeline, 15 meetings in 30 days, 3–5 pilot LOIs. Routed from CEO (ceo).**
4. **Waiting on you: Working demo runbook (clickable HTML) — G1 + G2 cluster variants. Routed from Scanner Engineer.**
5. **Waiting on you: Top-10 named-account ownership map + first-touch script + outreach cadence. Routed from CBDO.**
6. **Waiting on you: ESCALATION — current 14-day plan gate (4) Policy Wording Draft 2 AT RISK — HoUW substance-side. Routed from CEO (ceo).**
7. **Waiting on you: CEO: Open CFO search this week. Routed from board / Founder.**
8. **Waiting on you: us (IFA) LOI Deck v1.2 — rev-share anchor + pilots copy + Voiceflow integration. Routed from CEO (ceo).**
9. **Waiting on you: Coop scan v1 — partnership candidates for the the scanner stack. Routed from board / Founder.**
10. **Waiting on you: Customer-readable pricing sheet (Bronze/Silver/Gold + per-call). Routed from Actuary.**
11. **Waiting on you: Customer LOI template (3-tier, conditional carrier-paper) — G1 + G2 variants. Routed from board / Founder.**
12. **Waiting on you: Volume-gap closure — open-source pack expansion to 5K+ ($200 cap lifted 5/10, fan-out). Routed from Scanner Engineer.**
13. **Waiting on you: — customer-facing pull-through to v1.3. Routed from CMO (cmo).**
14. **Waiting on you: — UW spec-side audit vs v1.3. Routed from Underwriter.**
15. **Waiting on you: Align rating plan + claims taxonomy to OnePager v1.3 (six scenarios, three exclusions, $10K/$50K/$100K tiers). Routed from Head of Underwriting & AI Risk.**
16. **Waiting on you: Update policy wording to OnePager v1.3 (six triggers, three exclusions, interim-payout language). Routed from Underwriter.**
17. **Waiting on you: Reconcile pricing v1 against OnePager v1.3 ($10K/$50K/$100K tiers, our agent risk score (ARE) Score modifier, sector factor). Routed from Actuary.**
18. **Waiting on you: Lock all public-facing copy to OnePager v1.3 (six covered, three excluded, the score Score, $10K/$50K/$100K). Routed from CMO (cmo).**

19. **Waiting on you: Board PDF — R-score → A/B/C bands → 9 cells → pricing (concept explainer). Routed from board / Founder.**
20. **Waiting on you: Track 1 — the scanner P1 expansion (P1.1, P1.2, P1.3, P1.5, P1.6). Routed from board / Founder.**
21. **Waiting on you: Architecture self-review — same-day 1-pager (board-accelerated). Routed from CTO (cto).**
22. **Waiting on you: Scanner Operator Runbook (bus-factor remediation, due 5/22). Routed from Scanner Engineer.**
23. **Waiting on you: CBDO input — validate six covered perils against MSA-signing + POC-to-prod customer pain. Routed from CBDO.**
24. **Waiting on you: CMO: Walls-as-signal slide for 5/15 carrier-pack. Routed from board / Founder.**
25. **Waiting on you: Expand pricing slide — 4 pillars copy (Factuality / Bias / Adversarial / Eval Hygiene). Routed from CMO (cmo).**
26. **Waiting on you: the score deck screenshots: score card + finding-detected logs. Routed from board / Founder.**
27. **Waiting on you: CMO: glossary redline — us swap on walls-as-signal speaker note (pre-5/15 lock). Routed from board / Founder.**
28. **Waiting on you: CTO: the score audit footer field-map verify + bundle hostname rebrand (pre-5/15 lock). Routed from board / Founder.**
29. **Waiting on you: the scanner Check. Routed from CEO (ceo).**
30. **Waiting on you: Browser to API. Routed from board / Founder.**
31. **Waiting on you: Friday 17:00 — Underwriter (operational) weekly throughput to CEO. Routed from Underwriter.**
32. **Waiting on you: Friday 17:00 — Head of Underwriting weekly to CEO. Routed from board / Founder.**
33. **Waiting on you: Friday 17:00 — CTO weekly Scanner status to CEO. Routed from CTO (cto).**
34. **Waiting on you: Friday 17:00 — CEO weekly status to Founders. Routed from board / Founder.**
35. **Waiting on you: Founder cred drop — Decodo (Smartproxy) PAYG. Routed from board / Founder.**
36. **Waiting on you: BEAAA-387c: Path B v0.2.3 baselines for M2 (Botpress) + M3 (Mistral Le Chat). Routed from Scanner Engineer.**
37. **Waiting on you: BEAAA-387d: Wire baselines into §2/§3/§5 (calibration delta, N=5 band, discrimination). Routed from Scanner Engineer.**
38. **Waiting on you: -CMO: Marketing/buyer-pain fit cut on 40 design-partner targets. Routed from board / Founder.**

39. **Waiting on you: -CTO: the score scanner v0.1 technical-fit cut on 40 targets. Routed from board / Founder.**
40. **Waiting on you: -CBDO: 10–15 net-new IDEAL candidates beyond Manus list. Routed from CBDO.**
41. **Waiting on you: Claims — TPA-vs-in-house ADR (memo to Founders, Fri 2026-05-22). Routed from Head of Underwriting & AI Risk.**
42. **Waiting on you: LC: counsel-brief assembly + dispatch for claims-protocol-draft-v0-1 (24h-of-). Routed from board / Founder.**
43. **Waiting on you: Provision GitHub substrate for scanner repo (org/account, repo, bot identity, PAT) — Founder-held action. Routed from CEO (ceo).**
44. **Waiting on you: First darwin build (Path D) — bootstrap per-build request against Path D protocol. Routed from Scanner Engineer.**
45. **Waiting on you: covered-perils language reconciliation pass vs the score pillar canon (substance-package readiness for counsel hand…. Routed from Underwriter.**
46. **Waiting on you: CEO: State insurance licensing strategy (NY, CA, TX, MA). Routed from CEO (ceo).**
47. **Waiting on you: CEO: Claims TPA vs. in-house decision. Routed from CEO (ceo).**
48. **Waiting on you: Status report. Routed from board / Founder.**
49. **Waiting on you: Presentation to a new board member. Routed from board / Founder.**
50. **Waiting on you: Tech Vendors. Routed from board / Founder.**
51. **Waiting on you: the score index. Routed from CEO (ceo).**
52. **Waiting on you: board decisions. Routed from board / Founder.**
53. **Waiting on you: Created a first score module. Routed from CBDO.**
54. **Waiting on you: can I see this paperclip from my iphone?. Routed from CEO (ceo).**
55. **Waiting on you: Statius. Routed from board / Founder.**
56. **Waiting on you: Create a concise Status power point presentation for the board. Routed from board / Founder.**
57. **Waiting on you: review relevant company ppt. Routed from board / Founder.**
58. **Waiting on you: Eval report - > Presentation. Routed from CMO (cmo).**
59. **Waiting on you: Severity/frequency curves v0. Routed from Actuary.**
60. **Waiting on you: Demo. Routed from board / Founder.**
61. **Waiting on you: Package us Demo v0.1 into presentation form. Routed from CMO (cmo).**

62. **Waiting on you: Define the first version of the AI Agent Insurance product.. Routed from board / Founder.**
63. **Waiting on you: Corgi. Routed from CEO (ceo).**
64. **Waiting on you: One-Page Plain-English Picture of the AI Agent Insurance Product. Routed from board / Founder.**
65. **Waiting on you: New Product definition. Routed from board / Founder.**
66. **Waiting on you: Can you do a quick ICP. Routed from board / Founder.**
67. **Waiting on you: ICP. Routed from board / Founder.**
68. **Waiting on you: Scanner - continue. Routed from CTO (cto).**
69. **Waiting on you: the score — Report Card. Routed from CEO (ceo).**
70. **Waiting on you: AIUC. Routed from CEO (ceo).**
71. **Waiting on you: Marketing pitch and one pager. Routed from board / Founder.**
72. **Waiting on you: Scanner - status. Routed from CTO (cto).**
73. **Waiting on you: the score scanner status. Routed from CTO (cto).**
74. **Waiting on you: Policy. Routed from Head of Underwriting & AI Risk.**
75. **Waiting on you: Document library. Routed from CEO (ceo).**
76. **Waiting on you: Pricing. Routed from board / Founder.**
77. **Waiting on you: the score test. Routed from CMO (cmo).**
78. **Waiting on you: AI Agent Insurance — In Plain English. Routed from CEO (ceo).**
79. **Waiting on you: Another agent to score.. Routed from Scanner Engineer.**
80. **Waiting on you: Competition. Routed from board / Founder.**
81. **Waiting on you: Status. Routed from CEO (ceo).**
82. **Waiting on you: Status. Routed from board / Founder.**
83. **Waiting on you: Pricing slide. Routed from board / Founder.**
84. **Waiting on you: Check. Routed from CEO (ceo).**
85. **Waiting on you: Nightly 06:00 — Auditor Report to Founders. Routed from CEO (ceo).**
86. **Waiting on you: Paperclip platform tuning: carve waiting on you/stuck out of long_active_duration trigger. Routed from board / Founder.**
87. **Waiting on you: Adopt Presidio for evidence-retention PII scrubber. Routed from board / Founder.**
88. **Waiting on you: Align evidence_refs shape with OpenTelemetry GenAI semantic conventions. Routed from board / Founder.**
89. **Waiting on you: Evaluate garak probe library — fold-or-skip into T2. Routed from board / Founder.**

90. **Waiting on you: Nightly 06:00 — Auditor Report to Founders. Routed from board / Founder.**
91. **Waiting on you: Review productivity. Routed from board / Founder.**
92. **Waiting on you: Review productivity. Routed from board / Founder.**
93. **Waiting on you: Daily CEO status report to board. Routed from board / Founder.**
94. **Waiting on you: Friday 17:00 — Head of Compliance weekly to CEO. Routed from board / Founder.**
95. **Waiting on you: Friday 17:00 — Claims Architect weekly to CEO. Routed from board / Founder.**
96. **Waiting on you: Daily CEO status report to board. Routed from board / Founder.**
97. **Waiting on you: Nightly 06:00 — Auditor Report to Founders. Routed from board / Founder.**
98. **Waiting on you: Latest status for the board. Routed from board / Founder.**
99. **Waiting on you: Review productivity. Routed from CEO (ceo).**
100. **Waiting on you: Harness: productivity-review false-positives on human-wait-gated tracker issues. Routed from board / Founder.**
101. **Waiting on you: Daily CEO status report to board. Routed from board / Founder.**
102. **Waiting on you: Nightly 06:00 — Auditor Report to Founders. Routed from board / Founder.**
103. **Waiting on you: Nightly 06:00 — Auditor Report to Founders. Routed from board / Founder.**
104. **Waiting on you: Nightly 06:00 — Auditor Report to Founders. Routed from board / Founder.**

## What is stuck and why

1. **CMO: Pilot enablement kit and market presence** — CMO (cmo), stuck 27 days.
   Moving it to `stuck` so it is visible for intervention.
2. **CMO: Pilot enablement kit (deck, one-pager, FAQ, security brief)** — CMO (cmo), stuck 27 days.
   ## Blocked pending v1 inputs v0.5 is fully drafted on this issue (deck, one-pager, FAQ, security brief, plan index).
3. **WS3 §10.4: PII redaction ruleset v0 (regex + NER + allow-list)** — CTO (cto), stuck 25 days.
   Moving it to `stuck` so it is visible for intervention.
4. **Draft executive LOI presentation talking points** — CBDO, stuck 21 days.
   Moving it to `stuck` so it is visible for intervention.
5. **WS3: Data handling policy for Scanner deployments** — CTO (cto), stuck 20 days.
   Moving it to `stuck` so it is visible for intervention.
6. **Discreet broker-channel check — AIUC carrier and reinsurance program** — CBDO, stuck 20 days.
   Moving it to `stuck` so it is visible for intervention.
7. **WS2: Scanner -> Underwriter API contract + evidence package** — CTO (cto), stuck 15 days.
   Moving it to `stuck` so it is visible for intervention.
8. **CTO: Ship our agent risk scanner (ARE Scanner) v0.1 (spec, API contract, data policy, eng hiring)** — CTO (cto), stuck 14 days.
   Moving it to `stuck` so it is visible for intervention.
9. **CMO: Conference presence plan (AI infra + insurance crossover)** — CMO (cmo), stuck 26 days.
   Moving it to `stuck` so it is visible for intervention.
10. **MLOps/AI-safety partner discovery: 2 conversations** — CBDO, stuck 25 days.
    Moving it to `stuck` so it is visible for intervention.

## What moved since yesterday

**Completed**

- P1.3 v0.1.2 → v0.1.3 — Head of UW countersign needed (op-seat recommends ACCEPT all 4 asks) — completed by Head of Underwriting & AI Risk.
- Tier A · P2 fairness probe set + judge rubric (P2.1–P2.5) — completed by CTO (cto).
- Tier A · P1.3 Self-contradiction probe set + judge rubric — completed by CTO (cto).
- Tier A · P1.2 Citation-integrity probe set + judge rubric — completed by CTO (cto).
- BEAAA-206a — P1.2 v0.2.1 Atticus dry-run + N=5 calibration delta — completed by CTO (cto).
- Bigger players design partners — $100-300M ARR sourcing (sequel to) — completed by CBDO.
- H3 v0.2 — CTO: 5-fixture goldens delta on v0.3.0 F2 corpus before v0.2 lock — completed by CTO (cto).
- Bigger players design partners — our agent risk scanner (ARE Scanner) v0.1 technical-fit (sequel to) — completed by board / Founder.
- H3 v0.2 — Head of UW countersign-on-numbers (F2 5-fixture goldens) — completed by Head of Underwriting & AI Risk.
- H3 v0.2 — Atticus matter-summary dry-run (P1.1 cell with measured value) — completed by CTO (cto).
- Tier A · P1.1 Hallucination probe set + judge rubric — completed by Underwriter.
- Tier A · P1.6 Eval-coverage-breadth meta-dim aggregator — completed by CTO (cto).
- Review productivity — completed by CEO (ceo).
- our agent risk score (ARE) scanner test — completed by board / Founder.
- Bigger players design partners — marketing-fit review (sequel to) — completed by CMO (cmo).
- Design targets — completed by CEO (ceo).
- Pitch — completed by CMO (cmo).
- Sunday 18:00 — Auditor weekly pattern escalation — completed by Auditor.
- OSS LLM license review for customer-agent-class the score coverage — completed by Legal Coordinator.
- the scanner adapter coverage for OSS-LLM-backed customer agents — completed by CTO (cto).
- Open Source LLMs — completed by CEO (ceo).
- Phi-4 evaluation as the scanner judge candidate — Founder pre-read — completed by CEO (ceo).

- Path A scanner wiring: P2 BENCHES + applicability_decisions + held-fixture architecture_flags (unblocks) — completed by CTO (cto).
- CEO → Underwriter - Scanner Engineer is now a party on are-scanner-api-v1.md — your co-sign workflow includes… — completed by Underwriter.
- CEO → Auditor (short) - Add Scanner Engineer to nightly audit rotation — completed by Auditor.
- refactor PR — rename internal P1..P4 → OPS / BIAS_FAIRNESS / ROBUSTNESS / GOVERNANCE — completed by CTO (cto).
- Reconcile pillar names: contract (GOV/ROB/BIAS/OPS) vs internal (P1/P2/P3/P4) agent — completed by CTO (cto).
- CTO: Activate Scanner Engineer — classify Scanner queue, hand off bin/are-scan v0.2, commit AGENTS.md addendum — completed by CTO (cto).
- Scanner Engineer onboarding — read OS, ack Supreme Law + classification table, pick up bin/are-scan v0.2 first — completed by Scanner Engineer.
- UW follow-up on: P1→OPS rename riders + pricing-engine wake-on-merge — completed by Underwriter.
- rubric.yaml pillar-key rename audit (P1→OPS etc.): governance call + downstream caller sweep — completed by CTO (cto).
- CEO → CTO (the main handoff) - Activate Scanner Engineer — classify your queue, hand off rule-execution work — completed by CEO (ceo).
- bin/are-scan v0.2 + ongoing maintenance — Scanner Engineer ownership handoff — completed by Scanner Engineer.
- Wider scan slate: 3 Path B scans by 5/10 17:00Z (LOI binder gate) — completed by Scanner Engineer.
- Execute week-1 the score scans (v2.1 slate) — completed by Scanner Engineer.
- Path A v2.1: Claude family unavailable on OpenRouter — substitution decision (rule-change) — completed by CTO (cto).
- the scanner P4 GOVERNANCE vendor-evidence intake — questionnaire + 6-dim review pipeline (Tier B) — completed by CTO (cto).
- Score this agent. — completed by CTO (cto).
- the scanner P1 OPS probes — hallucination / citations / self-contradiction / calibration (4 dims, Tier A) — completed by CTO (cto).
- HoUW flag: has two contradictory CTO co-signs (Sonnet 4 vs Sonnet 4.5) — declare binding decision before Scan… — completed by CTO (cto).
- Daily CEO status report to board — completed by CEO (ceo).
- Grant Scanner Engineer AWS account access to provision audit-log bucket — completed by CEO (ceo).

- Review productivity — completed by CTO (cto).
- Path A v2.1 row 4 — execute scan against anthropic/claude-sonnet-4 (Anthropic-tier substitution) — completed by Scanner Engineer.
- Review productivity — completed by CEO (ceo).
- CMO tone markup on caveat copy (v0.1 → proposed v0.2) — completed by CMO (cmo).
- UW factual / no-misrepresentation pass on caveat copy (v0.1 + proposed v0.2) — completed by Head of Underwriting & AI Risk.
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — Claims Architect — completed by Claims Architect.
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — Underwriter (operational) — completed by Underwriter.
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — CSO — completed by CSO.
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — CFO — completed by CFO.
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — Auditor — completed by Auditor.
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — CMO — completed by CMO (cmo).
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — CBDO — completed by CBDO.
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — Designer — completed by Designer.
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — Legal Coordinator — completed by Legal Coordinator.
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — Head of Underwriting & AI Risk — completed by Head of Underwriting & AI Risk.
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — Actuary — completed by Actuary.
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — Head of Compliance — completed by Head of Compliance.
- Confirm receipt — Monday 09:00 CEO cascade (2026-05-18) — CTO — completed by CTO (cto).
- HoUW substance-side response on cycle log v0.1 — acknowledgment, escalation, parallel-prep plan — completed by Head of Underwriting & AI Risk.
- Claims — pre-bind protocol draft to Legal Coordinator (Wed 2026-05-20) — completed by Legal Coordinator.
- HoC: §10 filing-implication review for claims-protocol-draft-v0-1 (Thu 2026-05-21 EOD UTC) — completed by Head of Compliance.

- canonical-terms refresh — pre-counsel briefing memo prep (the score/the score → the score / glossary relock 2026-05-12) — completed by Head of Underwriting & AI Risk.
- Rename project dir `bmi-scanner/` → `are-scanner/` + contract bump are-scanner-api-v1@v1.0.1 — completed by Scanner Engineer.
- Monday 09:00 — CEO cascade to direct reports — completed by CEO (ceo).

**Picked up**

- Volume-gap closure — open-source pack expansion to 5K+ ($200 cap lifted 5/10, fan-out) — picked up by Scanner Engineer.
- Tier B2 — residential-proxy POC for the scanner (child) — picked up by Scanner Engineer.
- AC#2 live re-runs — Voiceflow 25/25 + NS priors via promptfoo runner (±0.02 reproducibility) — picked up by CTO (cto).
- Nightly 06:00 — Auditor Report to Founders — picked up by board / Founder.
- ESCALATION — current 14-day plan gate (4) Policy Wording Draft 2 AT RISK — HoUW substance-side — picked up by CEO (ceo).
- Claims — TPA-vs-in-house ADR (memo to Founders, Fri 2026-05-22) — picked up by Head of Underwriting & AI Risk.

## One thing to do today

### Founder cred drop — Decodo (Smartproxy) PAYG

Routed from board / Founder. Open 2 days. Reason: already escalated, waiting on a board decision.

---

**BEAAA-314** CTO: ARE audit footer field-map verify + bundle hostname rebrand (pre-5/15 lock)

**BEAAA-317** Paperclip platform tuning: carve in_review/blocked out of long_active_duration t

**BEAAA-322** ARE Scanner Check

**BEAAA-323** Browser to API

**BEAAA-334** Tier B2 — residential-proxy POC for ARE Scanner (BEAAA-274 child)

**BEAAA-342** Adopt Presidio for evidence-retention PII scrubber

**BEAAA-343** Align evidence_refs shape with OpenTelemetry GenAI semantic conventions

**BEAAA-344** Evaluate garak probe library — fold-or-skip into BEAAA-194 T2

**BEAAA-350** Nightly 06:00 — Auditor Report to Founders

**BEAAA-356** Review productivity for BEAAA-198

**BEAAA-357** Review productivity for BEAAA-238

**BEAAA-367** Daily CEO status report to board

**BEAAA-369** Friday 17:00 — Head of Compliance weekly to CEO

**BEAAA-372** Friday 17:00 — Claims Architect weekly to CEO

**BEAAA-374** Friday 17:00 — Underwriter (operational) weekly throughput to CEO

**BEAAA-376** Friday 17:00 — Head of Underwriting weekly to CEO

**BEAAA-377** Friday 17:00 — CEO weekly status to Founders

**BEAAA-378** Friday 17:00 — CTO weekly Scanner status to CEO

**BEAAA-382** Founder cred drop — Decodo (Smartproxy) PAYG for BEAAA-334

**BEAAA-384** Daily CEO status report to board

**BEAAA-387** Review productivity for BEAAA-387

**BEAAA-388** Review productivity for BEAAA-388

**BEAAA-392** CMO tone markup on BEAAA-388 caveat copy (v0.1 → proposed v0.2)

**BEAAA-395** UW factual / no-misrepresentation pass on BEAAA-388 caveat copy (v0.1 + proposed

**BEAAA-397** BEAAA-387c: Path B v0.2.3 baselines for M2 (Botpress) + M3 (Mistral Le Chat)

**BEAAA-398** BEAAA-387d: Wire baselines into §2/§3/§5 (calibration delta, N=5 band, discrimin

**BEAAA-412** Nightly 06:00 — Auditor Report to Founders

**BEAAA-414** Latest status for the board

**BEAAA-421** Path A scanner wiring: P2 BENCHES + applicability_decisions + held-fixture archi

**BEAAA-423** BEAAA-423-CMO: Marketing/buyer-pain fit cut on 40 design-partner targets

**BEAAA-424** Review productivity for BEAAA-387

**BEAAA-426** BEAAA-423-CMO: Marketing/buyer-pain fit cut on 40 design-partner targets

**BEAAA-427** BEAAA-423-CTO: ARE scanner v0.1 technical-fit cut on 40 targets

**BEAAA-428** BEAAA-423-CBDO: 10–15 net-new IDEAL candidates beyond Manus list

**BEAAA-432** Harness: productivity-review false-positives on human-wait-gated tracker issues

**BEAAA-434** Daily CEO status report to board

**BEAAA-444** Nightly 06:00 — Auditor Report to Founders

**BEAAA-450** BEAAA-206a — P1.2 v0.2.1 Atticus dry-run + N=5 calibration delta

**BEAAA-451** BEAAA-205 H3 v0.2 — CTO: 5-fixture goldens delta on v0.3.0 F2 corpus before v0.2

**BEAAA-453** BEAAA-207 P1.3 v0.1.2 → v0.1.3 — Head of UW countersign needed (op-seat recommen

**BEAAA-455** Bigger players design partners — $100-300M ARR sourcing (sequel to BEAAA-423)

**BEAAA-456** Bigger players design partners — marketing-fit review (sequel to BEAAA-423)

**BEAAA-457** Bigger players design partners — ARE Scanner v0.1 technical-fit (sequel to BEAAA

**BEAAA-458** Pitch

**BEAAA-459** BEAAA-205 H3 v0.2 — Head of UW countersign-on-numbers (F2 5-fixture goldens)

**BEAAA-460** BEAAA-205 H3 v0.2 — Atticus matter-summary dry-run (P1.1 cell with measured valu

**BEAAA-461** Path A scanner wiring: P2 BENCHES + applicability_decisions + held-fixture archi

**BEAAA-462** ARE scanner test

**BEAAA-463** Review productivity for BEAAA-388

**BEAAA-465** Open Source LLMs

**BEAAA-466** Sunday 18:00 — Auditor weekly pattern escalation

**BEAAA-467** OSS LLM license review for customer-agent-class ARE coverage

**BEAAA-468** ARE Scanner adapter coverage for OSS-LLM-backed customer agents

**BEAAA-469** Phi-4 evaluation as ARE Scanner judge candidate — Founder pre-read

**BEAAA-470** BEAAA-470 refactor PR — rename internal P1..P4 → OPS / BIAS_FAIRNESS / ROBUSTNES

**BEAAA-471** UW follow-up on BEAAA-470: P1→OPS rename riders + pricing-engine wake-on-merge

**BEAAA-472** BEAAA-470 refactor PR — rename internal P1..P4 → OPS / BIAS_FAIRNESS / ROBUSTNES

**BEAAA-474** CEO → CTO (the main handoff) - Activate Scanner Engineer — classify your queue,

**BEAAA-475** CEO → Underwriter - Scanner Engineer is now a party on are-scanner-api-v1.md — y

**BEAAA-476** CEO → Auditor (short) - Add Scanner Engineer to nightly audit rotation

**BEAAA-477** CTO: Activate Scanner Engineer — classify Scanner queue, hand off bin/are-scan v

**BEAAA-480** rubric.yaml pillar-key rename audit (P1→OPS etc.): governance call + downstream

**BEAAA-481** bin/are-scan v0.2 + ongoing maintenance — Scanner Engineer ownership handoff

**BEAAA-482** Scanner Engineer onboarding — read OS, ack Supreme Law + classification table, p

**BEAAA-483** ARE Scanner P1 OPS probes — hallucination / citations / self-contradiction / cal

**BEAAA-484** ARE Scanner P4 GOVERNANCE vendor-evidence intake — questionnaire + 6-dim review

**BEAAA-486** Path A v2.1: Claude family unavailable on OpenRouter — substitution decision (ru

**BEAAA-488** Grant Scanner Engineer AWS account access to provision BEAAA-30 audit-log bucket

**BEAAA-489** HoUW flag: BEAAA-486 has two contradictory CTO co-signs (Sonnet 4 vs Sonnet 4.5)

**BEAAA-490** Path A v2.1 row 4 — execute scan against anthropic/claude-sonnet-4 (Anthropic-ti
